Irish Emigration by some O Families

JA, JC, JT, MV, & Melchior Oberhaus

Some Oberholzer families during the 17th Century were eager to come to America, but did not have a way to produce enough capital for the trip. Some of these families had enough fare to travel from mainland Europe to England. After arrival, most of the refugees were grouped together in the same area of London. After the volume of people grew too large for London to handle, the poorest of those (the ones who could not afford passage to America) were transferred to Ireland, where they could at least meek out a survival subsistence for themselves.

In the years from the later 1600's to the later 1700's, the refugee parents of families died off, and the children continued on, trying their best to save enough funds to carry them to America. It was either the children or the grandchildren of the emigrants from the mainland who managed to find passage to the North American coast.

The cost of passage to America is documented by Alberty Dooren of a merchant ship from Rotterdam dated August 12th of 1709. "Passage to America was a two month trip from Rotterdam. It had a fare of 100 florins for everyone. There were no accounts for children, including food. Land and livestock in America would cost an additional 30 to 100 florins. Passengers must be able to pay; there will be no subsistence from anyone. The Queen of England knows nothing about German language and will refuse refugees; no more will be admitted from Rotterdam."

- Palatine Emigrants to America from the Principality of Nassau-Dillenburg, National Genealogical Society Quarterly 29, 1941 Pgs 41-44

"When Mittleberger sailed the fare from Rotterdam to Phila was 10 pounds for anyone 10 years old or over. Five to ten year olds traveled for 5 Lbs and those under 5 sailed free, and good luck to them. By the mid-nineteenth century the fare from Ireland to the United States was about 3 pounds 5 shillings, still almost half the annual income of the average farmer."

- Emigrants Crossing the Atlantic, Early American Homes Magazine, Feb 1997

David Weaver is closely tied to colonial newspaperman Christopher Sauer, an influential Pennsylvanian, who wrote of the treacherous trips across the Atlantic this haunting conclusion: [referring to "pirates on the sea, lifeboats used as stables and rotted by manure," and the "unfortunate passengers of the *Mexico* who froze to death off New York harbor on New Year's Day 1837 because there was no pilot on duty to guide them in."] "After all there is no use dwelling on such details: they were undoubtedly to a greater or lesser extent, the necessary accompaniments of a great unsupervised movement of emigration."

- Quote in Emigrants Crossing the Atlantic, Early American Homes Magazine, Feb 1997

There is a premise from language arts and history that reveal the path of emigration for John Overholser. Genealogists in the past several years have shown the surname of Oberholzer & its variants to have originated all from the Oberholzer Farm east of Zürich Lake in Switzerland. From there, the younger family moved to the spring called Aa, and spread into what is now Wald. When John's ancestors were forced to flee Switzerland, they would have moved somewhere between Alsace and Belgium.

It is quite likely that some of the Oberholzer descendants, which have not been documented, were part of the earliest group who traveled in 1709 to England, hoping to find passage to America. It is now understood that the poorest of the group of immigrants in England were sent to Ireland. There they stayed for several years, due to lack of funds for travel to America.

JA John Overholser

"John Overholser went to Juniata Co" after arrival from Europe. -Ship Passenger Lists, pg 290 There is a clue as to from where John immigrated. His daughter has a proper name of Sarah. This is the German name. But in some documents she is referred to as "Sallie". This is an Irish name. How appropriate for a family who through

poverty was forced to live in a country not their own for several years, until the children could scrape up enough funds to find their way to America.

Many thanks to John & Mary Overholtzer of Tingley Iowa for donating Adams Co Abstracts Vol2 book to OFA.

When John's grandson passed away, his wife signed the death certificate. On it she wrote what she had heard and remembered from the few and evidently far between family talks. She wrote her husband's mother's name, which was correct. But when she wrote his father's name, she wrote that he was born in Ireland. This was not a lie, just a mistake in the generations.

There is another clue as to from where JA John immigrated. His daughter has a proper name of Sarah. This is the German name. But in some documents she is referred to as "Sallie". This is an Irish name. How appropriate for a family who through poverty was forced to live in a country not their own for several years, until the children could scrape up enough funds to find their way to America.

- Dennis L Oberholtzer, OFA

Today, May 16th 2010, I spent the morning at home. After the morning rituals, I took my copy of *The Oberholtzer Book*, and a few letters from Barbara Ford's files to the back porch to read and ponder. Our porch is a covered refuge in the summer from the hustle and bustle of everyday life. After going through several pages, taking notes along the way on items which needed to be added into the computer, I came across a letter to Charlene dated July 11, 1990. Rather than explain what I read, I will quote the letter:

"I am quite confused about the date of death given in the Orphans Court records for John Overholser Sr in Adams County. It said 4/19/1794 and I see that John Sr was on the tax records from 1798 to 1810 when it said he was dead. Then there is mention that land was sold to John Sr [on April] 1803. Also in the estate papers of John Sr there is a note about John Sr and John Jr - balance due of 68 pounds to John Jr and the date is 1/18/1807. What originally bothered me was that the inventory was filed 3/15/1809. I have never run across an inventory being filed 15 years after death. The Letters of Administration appear to have the date 3/11/1809 and it also says "And further do make or cause to be made a true and just account of their said Adm. at or before the 11th day of March 1810", which would be a year after the LOA."

I was stunned! I looked at the date of the letter again. July 11th, 1990. Then I understood that Barbara was only four years away from printing her book. That means about three years till the compellation was pretty much complete. Then I realized that the pressure of putting together all those Oberholzer Lines interfered with her ability to compute, simply due to lack of time. I can really relate to that, for it happens to me regularly. Anyway, let me get to the point.

The paragraph states not two John Overholzers, but three! John Overholser Sr-Sr (as I will call him) died on April 19, 1794, according to the Orphan's Court records. JA John Overholser, born about 1740 and died prior to March 11, 1809, is listed also as John Sr in the letter. Both evidently lived at the same location; as did John Overholser Jr (c1767 - c8/5/1840 Darke Co OH). We know that John Overholser Jr did not have a son John, so he is the one that retains the title of Junior.

Since the Tax Records continue for John Overholser from 1798 through 1810, it reveals that both JA John and JA3 John Jr both lived at the same property also, having need of only one tax to be recorded, and thus only one John Overholser on the tax records.

Now that it is clear that JA John Overholser had a father John Overholser Sr, who is this person? I suggest the answers are already existent. In 1740, a John Overholser came from Europe and settled in Juniata County PA. That is what little information was in the ship records. I have recently been in touch with the Juniata County Historical Society, which has told me they have no knowledge of him in their records. I believe that John did not stay there long enough to be recorded. John Overholser is first found on the tax list of Reading Twp, York County (now Adams) in 1761. Since JA John Overholser would only have been about 20 years old, I suggest that John Sr-Sr was the one named on the tax list. Whether he also was a blacksmith I cannot tell.

Reading Township lies so close to the Maryland border, which originally was part of the Virginia territory, as was all of western Pennsylvania. John Sr-Sr could have very likely lived in Maryland prior to moving up to Reading Township. Thus the theory that AB Abraham Overholser, and CA Christian Overholser, are very probably the sons of John Overholser Sr-Sr.

- Barbara Ford to Charlene Aitken, 3/15/1991

Moved to Reading Twp, Adams Co PA, taxed in 1761, taxed 1780 180 acres 4 horses 4 cattle**

On June 16, 1794 John Overholtzer surveyed 72 acres in Reading Township. [GS#1003194 Land Warrants York County PA] The fact that the petition date of JA John stated John Sr died on April 19, 1794 proves that this property was surveyed by JA after his father's death.

The Orphan's Court record for JA John Overholser Jr was written on the 18th day of April 1809. In it, it states that John Overholser Jr (JA) petitioned the court "setting forth that the date John Overholser Sr died since the 19th April A.D. 1794" The wording of the Court Petition is obscure, and was improperly or by accident misleadingly written by the clerk. It reads as though there was only one John Senior, "*since immigrant John passed away in 1794.*"

JA3 John Overholser Jr c1767 - (c8/5/1840 Darke Co OH) m **Margaret [?]**. We believe that this is the John Overholser who dies in Darke Co OH 1840. Henry Overholser, Administrator of the estate, posted the bond 9/7/1840 with Benjamin Overholser & David Lime as surities. Henry made 2 trips to Strawtown IN to settle the estate-that is the are where Cornelius Overholser (JA33) lived. Cornelius came from IN to the vendue sale of John Overholser's estate 10/3/1840. John Sr of Adams Co PA was a blacksmith, as was John of Darke Co. In the estate papers of John's father, John Jr's signature appears and it is very much like the one in the estate papers of John of Darke Co, although there were about 30 years between the signatures. John Jr disappears from the Adams Co tax list in 1829 which may mean that he left for Ohio then. Below is what we feel is part of John's family (the 1820 census shows 4 sons & 3 daughters in Adams Co PA).

Senator Henry Overholser

JA430 Henry Overholser 4/14/1846 - 8/25/1915 OK He came to Oklahoma April 22, 1889, at the time of the opening of the OK Territory. He built the Grand Hotel and the Overholser Opera House. His most notable accomplishment was in 1897 when he induced the Frisco Railroad to extend their line from Tulsa through Oklahoma City. In 1904 he built a mansion which is a showplace today in Oklahoma City. Henry suffered a stroke while on tour in Europe in 1911, and lingered as an invalid until his death.

Henry was the first Senator of Oklahoma Territory

AB2 [JM] John Overholser c1764 - 1842 Madison Twp, Montgy Co OH, will written 1/18/1841, probate 9/2/1842
m **Susanna Schneider** c1770 - 12/1849 Madison, Montgy Co OH (wid/o John Schneider)
probable d/o Jacob & Margaret Snider of Back Creek, Berkeley Co VA (now WV)

Records show that John was in Woodberry Twp, Bedford Co 1789. He was last on the tax list 1806 in Quemahoning Township, later Conemaugh Twp, Somerset Co and on the 1808 tax list Madison Twp, Montgy Co OH with son Abraham. A 1927 letter to Rev Isaiah E Oberholtzer from a descendant of his said that John came from Maryland with his wife and sons Abraham and Jacob (born Aug 1789). John may have moved to Bedford Co 1789 in light of his father's ill health. Payments on Madison Twp OH land began June 1807.
